"ONE OF THE MIDWESTS LARGEST MUM GROWERS"

**BLOOMING MUMS for SPRING SALES!**

**HERE IS HOW**

In recent years bedding plants have had tremendous popularity and surely will continue to do so. The general list of bedding plants sold has maintained an ever-increasing demand because of the long, almost trouble-free, season of bloom. And NOW, the ease of flowering Garden Mums in spring, permits their use right along with bedding plants for the cash and carry trade. Customers immediately recognize a good buy, knowing the bloom can be enjoyed both seasons, spring and fall.

We urge you to cash in on this very acceptable bedding plant item. Sales can be consummated over a long period, even as pinched plants before in bloom.

Mums potted to a three-inch pot the last of February, pinched one week later, and grown at a night temperature of 60 degrees, will offer a progression of flower in early May. A recommended list of the most suitable varieties for this purpose will be found inside of this list.

If the grower wishes to spread out the planting period for this crop, cuttings can be potted over a period of about thirty days — mid-February to mid-March, without the necessity of shade or lights, and thereby extend the blooming time over a longer period. Only 8 to 10 weeks are required to bloom.

The above procedure for flowering Garden Mums thru-out the May sales period does not require the use of shade or lights. However, if it is desired to flower them for a specific date, such as Mother's Day or Decoration Day, the following schedule is suggested.

Mother's Day (May 14)	Plant Mar. 1	Light Mar. 1-8	Shade Mar. 20 on	Pinch Mar. 24
Decoration Day (May 30)	Mar. 19	Mar. 19-25	Mar. 26	Apr. 9

### SHIPPING INFORMATION

**DELIVERIES:** All orders are shipped by express collect unless otherwise directed. If parcel post is required, be sure and allow sufficient postage with your order.

**CLAIMS:** Our responsibility ceases when delivering carrier accepts shipment. If damage should occur enroute, have your AGENT inspect shipment and assist you to properly file claim for loss immediately. We shall aid you in every way we can, but in case of damage notify us at once.

**PACKAGING:** By shipping plants for many years to the wholesale trade we are fully aware of the many problems arising to perishable products enroute. Our means of packing is of the latest. Each and every 25 plants are placed in cellophane bags in partitioned boxes sealed and well wrapped in many thicknesses of news paper. This method assures safe arrival of the cuttings.

**SUBSTITUTIONS:** When substitution is permitted and necessary, we will ship equal or finer varieties, to the best of our judgment. Very often minor substitution, when permitted, will complete an order in full for one shipment, thus eliminating any delay and added expense.

**AVAILABILITY:** Our GARDEN MUM rooted cuttings are in constant production from JANUARY 1st to MAY 30th. 25 of each variety is the least that can be supplied, and all quantities must be in multiples of 25 because of the packing.

Special collection prices are made to those who wish us to select the better varieties for them. All collections are well balanced, and including many of the newer and better varieties, and usually can be shipped immediately or as needed.
